Subject: Delta Shipyards

Todd,

EPA OSC Gary Moore has requested that I contact LDEQ and ask you guys if there are some specific clean-up criteria/action levels that should be observed for removal or stabilization activities at the Delta Shipyards site. I've attached a copy of the sample data tables for your review along with the Sample location map. As you review the data, note that the first five characters of the sample name indicate the sample location. I've also attached a word document that explains all the sample nomenclature. Please let us know something as soon as you can. We will then submit some waste samples for Treatability Tests based on the input we receive from LDEQ.

Let me know if you need anything else.

Thanks,

9522415

which may be a computer program. This attached computer program could contain a computer virus which could cause harm to EPA's computers, network, and data. The attachment has been deleted.

This was done to limit the distribution of computer viruses introduced into the EPA network. EPA is deleting all computer program attachments sent from the Internet into the agency via Email.

If the message sender is known and the attachment was legitimate, you should contact the sender and request that they rename the file name extension and resend the Email with the renamed attachment. After receiving the revised Email, containing the renamed attachment, you can rename the file extension to its correct name.

For further information, please contact the EPA Call Center at (866) 411-4EPA (4372). The TDD number is (866) 489-4900.
